MASSACRE OF CHRISTIANS.

Thirty-Two People Burned Alive and
Many Tortured and Spared.

London, Oct. 28.—A massacre of native
Christians at Uganda, Africa, is reported
as a page refused to commit a crime at the
command of his master in June, and this
was taken as a prelude for all manner of
crimes to be perpetrated on the same people.
Thirty-two were burned alive together,
while many were tortured, mutilated and
spared to death. The reports of the mis-
sionaries were appalling, and the atrocities
had the effect of increasing the number of
converts.

Not Ready to Adjoin.

CHICAGO, Oct. 28.—The house of deputies
of the Episcopal church Tuesday non-con-
curred in the resolution for adjournment Wednes-
day, there being several important measures
voted upon, among which was the revision of
the liturgy, the resolution regarding Chris-
tian unity and the marriage and divorce
question. Many members have already gone
home, and various urgent appeals were made
to the delegates to remain and push the work.
Wednesday morning the Rev. Dr. Franklin,
of Pennsylvania, complained bitterly that
the important subject of marriage and di-
vorce had been slighted by the convention.
A committee was appointed to look into the
subject and report at the next general con-
vention. A message from the house of bis-
hops was also presented declaring that the use
of fermented wine in the communion service
was contrary to Scripture teachings, but
recommending the permissive use of water
with the wine.

Were Not Durable Goods.

WASHINGTON, Oct. 28.—A naval
explorer to a report of a local paper that
the charge of smuggling in the navy re-
cently preferred against officers of the "Sara-
tooga" is unfounded; that the cargo brought
from the vessel in the vessel in 1885 con-
sisted of the furniture and personal effects of
Paymaster Thompson, who had been sta-
tioned at Villa Franca, and was coming
home, and had permission to send his goods
home in this way; that there was no secre-
cy about the transfer and that it was no smug-
gling scheme, as the goods were not dutiable.
The officer who makes the explanation,
claims to have been engaged on the "Sara-
tooga" at the time of the transfer, and the
story of the navy, nevertheless, has begun an
investigation of the matter.

Death of Judge Walter H. Bates.

CHICAGO, Oct. 28.—Judge Walter H. Bates

ston of paralysis. Deceased was born at

supreme bench, resigning in 1847 and being

PASADENA, Oct. 28.—The ring-
leaders in last winter's bread riots, which
resulted from the failure of large fishing
trains, have been sentenced to terms of im-
prisonment ranging from six months to two
years. There is a good deal of suppressed
excitement over the sentences, but the severe
measures taken against these men seem to
have calmed the riotous spirit of others, and
no more trouble is expected.

Fled Against Bulgarian Ministers.

VIENNA, Oct. 28.—Greatest excitement
prevails at Loh Polanka over the arrest of the
commandant of the garrison there, for hav-

cesses, winner to take 75 per cent, and loser

After Diphtheria.

Diphtheria is a terrible disease, requir-
ing the greatest medical skill to effect a
complete cure. Even when its power is
broken, it clings to the patient with great
persistency, and often leaves its victim
poisoned and prostrated. Just here
Floors' Sarsaparilla does a vast amount
of good, expelling impurities from the
blood, giving it richness and vitality,
while it renovates and strengthens the
system.

XX. GOV. A. H. STEPHENS COVINS.

Yam, the cousin of the late Ex-Gov-
ernor Alexander H. Stephens, and has
been postal clerk on different railroads
since 1868. For ten years I have been
a sufferer from a cancer on my face,
which grew worse until the discharge of
matter became profuse and very offen-
sive. I became thoroughly disgusted
with blood purifiers and pronounced
them humbugs, as I had tried many
without relief.

Finally I was induced to use B. B. B.,
which was about the 1st of February,
and continued its use until the latter part
of April. The offensive discharge de-
creased at once and the hardness around
the cancer disappeared. It improved my
general health and I rapidly gained flesh
and strength. The discharge gradually
decreased and the cancer became less and
less in size until nothing remained except
a scar to tell the tale of a once danger-
ous cancer. All who have seen me since
I have commenced the use of B. B. B.
bear testimony of my great improvement,
and the scar on my face shows that it
cured the cancer. I find that B. B. B.
comes squarely up to what it is recom-
mended, and I cannot say too much in
praise of this wonderful medicine. I
have tried all but B. B. B. stands at the
top as a blood purifier.

There is a copy from the Athens
(Ga.) Banner-Watcher, being the volun-
tary language of Mr. James A. Greer.
"Mr. Greer is an honest, upright citizen
of Athens, who had a bad cancer, and
his numerous friends thought that he
could not live very long, as the cancer
was gradually spreading the foundation of
his constitution, but now looks well and
healthy."

AGAINST IT.

Several physicians have pronounced
my disease blood poison, caused by pain
or lead in the paint, but they could not
cure me. Last summer I used eighteen
bottles of a large advertised blood medi-
cine, which did me no more good than so
much water.

I have used only two bottles of B. B. B.,
and am proud to say that I have re-
ceived greater benefit from them than
from the eighteen, and am now rapidly
recovering. There is no question about
the superiority of B. B. B. over all
blood remedies.
